LUXURY RESIDENCES

Luxury smart control

Control your environment effortlessly with elegantly designed wall-mounted keypads and touch panels.

This is complemented by a remote and/or your personal mobile device(s) with a programmable control interface in a single application.

For ultimate convenience, integrate ambient control options like Amazon Echo (Alexa) to command your space with just your voice.

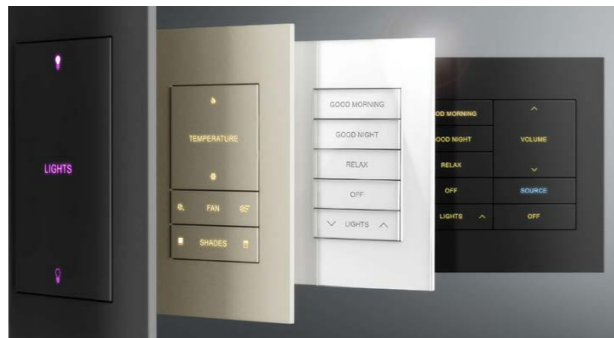

Cinematic experiences

Luxurious seating, elegant wall and floor coverings, big screens, soundproof walls, automated lighting, climate control, and motorized curtains—our solutions elevate your movie viewing experience to an unparalleled level.

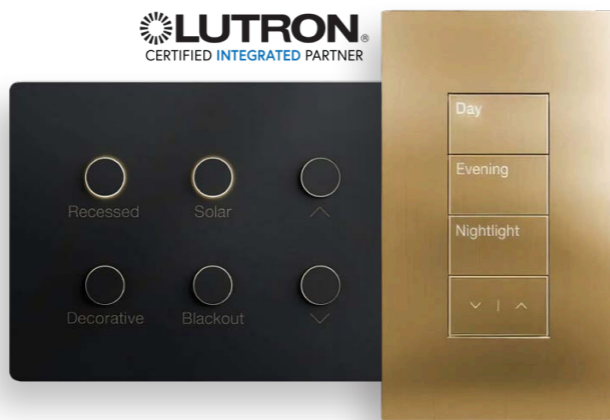

Bring the cinema experience to your home with our state of the art 8K ultra-high definition projectors and 11.2 Dolby surround sound.

Lighting

We design & implement indoor & outdoor architectural lighting, creating the perfect ambience for your space.

LUTRON
CERTIFIED INTEGRATED PARTNER

Pre-set Ambience

With pre-set lighting scenes like morning, evening, or entertain, our system transforms the room's ambience with just one touch.

Automated blinds & curtain tracks

Whether enhancing natural light, privacy, or ambience, our shading solutions add a refined touch to your space.

Discover the perfect blend of design and innovation with state-of-the-art shading systems for ultimate convenience and comfort.

Curated selection of materials

A distinguished selection of materials, thoughtfully chosen to enhance your interior style.

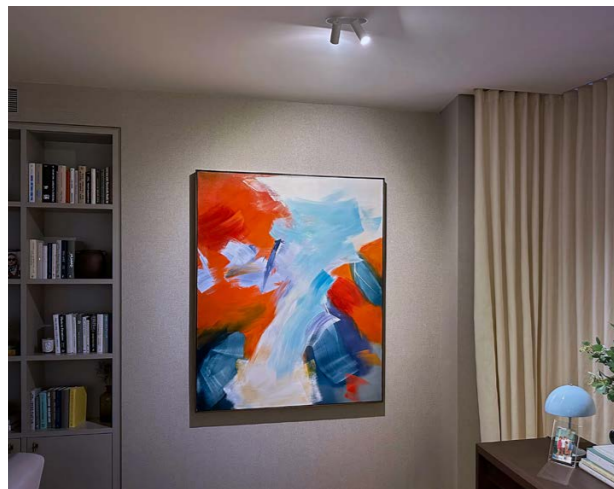

From automated curtains and blinds to ceiling-mounted drapery, we meticulously design and program your space with unparalleled attention to detail.

Lighting design for artwork

Exceptional lighting design is crucial for highlighting artwork, shaping its perception and appreciation.

More than mere illumination, lighting elevates the entire viewing experience.

Functional & aesthetic illumination

IntelliCasa offers a comprehensive service, designing lighting solutions that artfully merge aesthetics with functionality.

Our expert designers work closely with clients to create bespoke lighting plans that elevate ambiance and enhance the beauty of artwork in any space.

Climate control & BMS

Our technology seamlessly integrates **building management systems** with HVAC (heating, ventilation, and air conditioning) and smart home controls, ensuring a consistent level of comfort throughout your space.

Discover our climate control projects online.

Humidity & cooling

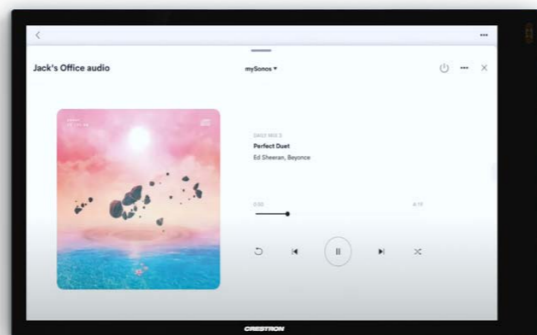

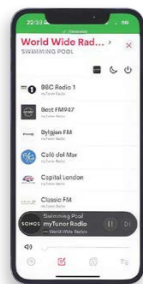

Temperature and humidity control are the key to perfect wine preservation. We design and install bespoke wine cellar systems, ensuring precise control of both for optimal storage.

Audio speakers

Allow us to craft the perfect high-fidelity audio system tailored to your space. Experience your music exactly as you desire, with unparalleled sound quality.

Multi room audio

Enjoy different music in each room, or synchronize the same audio throughout your space by selecting 'party' mode.

Rise project online

External lighting

Extend your automation systems to the garden or roof terrace. Whether enjoying an intimate dinner, unwinding, or hosting a party, enrich your luxury outdoor experience with customizable lighting, adjustable brightness, and music synchronicity technology.

Landscape speakers

Experience exceptional all-weather outdoor and garden speaker systems, perfect for homes, businesses. Choose from on-wall, on-ground, freestanding, or in-ceiling options for seamless integration.

IntelliBroadband & Wi-fi

From remote locations to high-traffic areas, maintain a flawless high-speed internet connection.

Cloud storage & network solutions

A reliable IT and cloud solution is essential. At IntelliCasa, we ensure your data is seamlessly synchronized and protected across multiple homes and offices, offering you not only complete control but also peace of mind.

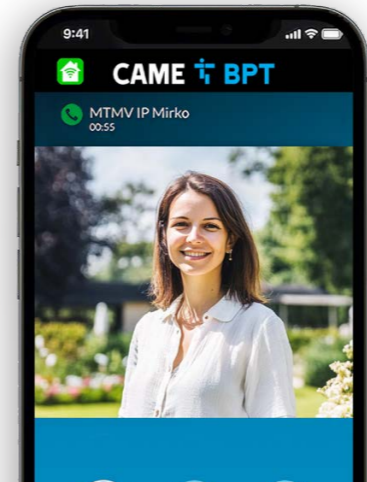

Security & monitoring solutions

We offer integrated solutions combining intrusion alerts, fire alarms, CCTV, motion sensors, panic buttons, and door entry systems.

Your systems are accessible from anywhere in the world, ensuring the safety of your family and space at all times.

Surveillance & storage services

Equip your space with the latest CCTV technology, ensuring complete security. Back up your data locally and in the cloud, keeping everything protected and giving you peace of mind.

Maintenance of luxury residences

For your peace of mind, we offer bespoke maintenance and repair contracts for all our residential installations, as well as third-party systems following a comprehensive assessment.

We ensure all your home's systems operate seamlessly from a single, centralised platform—easily controlled via smartphone or wall panels.

Our services not only extend the life of your equipment but also enhance your comfort and security, covering lighting, climate control, satellite, IRS, access control, internet and cloud services, CCTV, intruder alarms, and audio-visual systems. With both reactive and preventative care, we keep your home up to date and running smoothly for years to come.

Maintenance of communal areas in prestigious buildings in central London.

Luxury residential buildings are renowned for providing comfort and a seamless living experience for residents and guests. For building managers, ensuring systems run smoothly is essential to prevent disruptions and allow focus on more critical tasks.

Our commitment to quality and luxury in BMS ensures preventive care to minimise downtime, keeping your property secure and comfortable. With a dedicated team in London, we guarantee swift response times should any issues arise.

We proudly manage the systems for residential buildings in Mayfair & Belgravia

Working with industry leaders

Through collaboration with the industry's leading brands, we've refined our expertise. This experience enables us to recommend the ideal product combinations, ensuring seamless integration and optimal performance.

We are proud to be official partners with:

In addition, we work with:

R&D in AI-driven cybersecurity

As members of the Industrial Advisory Board at UCL's EEE department, and in collaboration with UCL and City on their Continuous Development Programme, we are developing an AI-driven system to enhance IoT network security.

Our smart sockets and circuit breakers seamlessly integrate to detect and neutralize cyber threats automatically, providing robust protection across connected environments.

“IntelliCasa's professionalism and expertise have significantly enhanced our workplace at Venture X Chiswick Park, making them an invaluable partner. Their technology in the reception area, including advanced light control and a state-of-the-art music system, creates an inviting atmosphere for our clients and guests. The boardroom is equipped with intuitive touch panels and consoles, facilitating effortless use of Teams, Google Hangouts, and Zoom for our meetings. Intelicasa's support is exceptional, always available to assist and ensure everything runs smoothly”
